

## High Lift Scissor Table

### OVERVIEW

Optimum's High Lift Scissor tables have the capacity to lift loads up to 4.2m high with our standard models and 12m on custom models. With a very compact foot print, stable base frame and multiple scissors you acquire a high-lift table suitable as a work platform, goods elevator, pallet elevator or pallet stacker and is also an excellent solution where there is a need for handling goods from different floor levels. Without our customisation service we can offer Optimum's high lift scissor tables, can be equipped with safety devices as locking device, handrails, interlocked doors, protective curtains and vertical support rollers.

### FEATURES

#### Suitable for loads up to 4000kg

- ✓ Industrial quality Italian 'BUCHER' 3 phase hydraulic power pack
- ✓ Heavy duty scissor frame with self lubricating bushes on pivot points and safety descent bar on upper platform
- ✓ Heavy duty cylinders with drainage systems and check valve to stop the lift table lowering in case of the hose bursting
- ✓ Removeable lifting eye to facilitate handling and lift table installation including safety clearance to prevent trapping
